EXPERIENCE

Phinma-University of Pangasinan **2023**
Full Stack Developer

Directed a team of eight as a proficient project manager and principal full-stack developer, steering the development of a comprehensive website and app. Applied skills in Flutter, HTML5, CSS, JavaScript, PHP, and MySQL to facilitate the smooth integration of features and functionality, effectively managing the entire project lifecycle.

Phinma-University of Pangasinan **2022-2023**
Back-end Developer

Led a 5-member team as project manager and primary back-end developer, orchestrating the creation of an innovative app using Java and Flutter. Successfully managed the project lifecycle, ensuring seamless integration of features and optimal functionality.

People Management Association of the Phillipines **2023**
Back-end Developer

Participated in an Innovation Hackathon, fostering collaborative efforts with diverse teams. Played a pivotal role in the development of a website and app for the entry, showcasing adaptability and teamwork in a fast-paced, competitive environment.
